

**Rating Action: Moody's assigns P-1 ratings to Bayfront Infrastructure Management's commercial paper programme**

---

05 Feb 2021

Singapore, February 05, 2021 -- Moody's Investors Service has assigned Prime-1 (P-1) foreign and local currency short-term debt ratings to Singapore-based Bayfront Infrastructure Management Pte. Ltd.'s (Bayfront) USD500 million guaranteed euro-commercial paper programme (CP programme).

The P-1 ratings are based on the full, unconditional and irrevocable guarantee (Guarantee) provided by the Government of Singapore (Guarantor, Aaa stable).

**RATINGS RATIONALE**

The ratings of the CP programme are based on the Aaa credit strength of Singapore. In Moody's opinion, the terms and conditions of the Guarantee are sufficient for credit substitution.

The Guarantee covers Bayfront's overall debt repayments of up to USD1.8 billion for the principal on a revolving basis and USD200 million for interest payments. For the CP Programme, the Guarantee will also cover Bayfront's repayments of up to USD500 million for principal and USD50 million for interest payments.

The terms of the Guarantee are consistent with Moody's core principles for guarantees for credit substitution, which were identified in a methodology called "Rating Transactions Based on the Credit Substitution Approach: Letter of Credit-backed, Insured and Guaranteed Debts", published in May 2017. These core principles as they relate to Bayfront's CP programme are :

1. The Guarantee is unconditional and irrevocable, and covers the full amount of the CP Programme.
2. The Guarantee covers any amounts avoided or clawed back as a result of insolvency, bankruptcy or similar proceedings brought against Bayfront.
3. The terms of the Guarantee extends for as long as the terms of the CP programme.
4. The Guarantee is enforceable against the Guarantor in Singapore courts.

The Guarantee differs from what Moody's considers as ideal legal feature for credit substitution in relation to the timeliness of payment. Legally, the Guarantee grants the government a period of 15 days to repay creditors after payments are due. However, in practice, there are sufficiently strong incentives for the government to pay without delay in the event that the guarantee is triggered. Bayfront's indirect government ownership and the fact that the Guarantor is the government, rather than a third-party commercial entity offering a product for a fee, all establish a linkage with the government's own obligation and interest to make timely payment.

**OUTLOOK**

Short-term ratings do not carry outlooks.

**FACTORS THAT COULD LEAD TO AN UPGRADE OR DOWNGRADE OF THE RATINGS**

There is no possibility of a rating upgrade because the P-1 short term ratings of the CP programme are the highest possible under Moody's short-term rating scale.

Bayfront's guaranteed short-term debt ratings are linked to the ratings of the Singapore government. Only a multi-notch downgrade of the sovereign's rating would lead to a downgrade of the CP programme ratings.

The principal methodology used in these ratings was Rating Transactions Based on the Credit Substitution Approach: Letter of Credit-backed, Insured and Guaranteed Debts published in May 2017 and available at [https://www.moodys.com/researchdocumentcontentpage.aspx?docid=PBC\\_1068154](https://www.moodys.com/researchdocumentcontentpage.aspx?docid=PBC_1068154) .
